

FIJI ELECTRICITY AUTHORITY

EOI 01/2015

PROSPECTIVE POWER LINE CONSTRUCTION CONTRACTORS

In line with the Government of Fiji's target to ensure that every household in Fiji has access to electricity by the year 2020, the Fiji Electricity Authority foresees an increase in the volume of distribution power line construction work over the coming years, far beyond what can be safely completed by FEA teams and our existing pool of power line construction contractors in a timely manner.

The Fiji Electricity Authority invites Expressions of Interest (EOI) from reputable qualified companies or individuals who intend to venture into this area of business. The Authority encourages registered electrical contractors, who wish to enter into this arena of business, to register their interest.

Interested parties are to contact the FEA General Manager Network on 9999272 for further information.

Upon receipt of the Expressions of Interest, the FEA plans to hold an information dissemination seminar to brief potential or interested parties on the way forward and the necessary requirements for them to qualify as power line construction contractors.

This EOI closes at 4.00pm Wednesday, 14th October, 2015.
